Jagdish Bisht

Product Designer (UI/UX)

View Portfolio ↗

SUMMARY

Product designer (UI/UX) with nearly 3 years of experience designing mobile apps, web platforms and dashboards for B2B and B2C clients in India, the US and the UAE. Works end to end, from stakeholder interviews and user research to user flows, wireframes, high-fidelity UI, design systems and developer handoff. Uses AI-assisted workflows, including Claude Code, to turn designs into working prototypes.

EXPERIENCE

Code Brew Labs
Jan 2026 - Present

Product Designer (UI/UX) | Mohali, India

- Design AI products such as Vendsuite AI, along with AI agents and B2B product experiences, working closely with developers and the marketing team.
- Ran UX research and audits on ad landing pages for an in-house AI product, which improved lead conversion from 2% to 8% in the UAE market.
- Build near-production prototypes with Claude Code in place of static mockups, and use Claude Cowork to speed up research synthesis and analysis.
- Use Microsoft Clarity, Google Analytics and UXMagic to back design decisions with real user data.

SmartInfo Care Solutions
Feb 2025 - Jan 2026

Graphic & UI/UX Designer | Mohali, India

- Designed mobile apps, dashboards and websites for US-based B2B and B2C clients.
- Owned the end-to-end UX of an e-reader app positioned as a Kindle alternative, covering stakeholder and user interviews, usability testing and behavioral analysis.
- Led research from discovery through validation to inform product and market decisions.

Brillica Services
Mar 2024 - Jan 2025

UI/UX & Graphic Design Intern | Dehradun, India

- Created the brand identity for Nishana and a complete UI/UX redesign for Gadgeon Middle East.
- Built case studies for an e-learning platform and an e-commerce experience.
- Conducted user research and analyzed findings to identify design opportunities.

PROJECTS

Vendsuite AI (AI multi-service platform): End-to-end product design, from AI-guided onboarding to the customer, driver and admin experiences across nine service verticals.

Dateshala (Relationship guidance app): Mobile app design for a platform that connects users with relationship coaches and psychologists.

BharatPe (Fintech, UPI payments): Contributed to the UI/UX design of a merchant app that lets businesses accept payments from any UPI app through a single QR code.

Devora (AI pricing assistant): Turns a full-day quoting cycle into a two-minute estimate that people can trust.

Mind Bloom (Merge puzzle game): Game design for children and players aged 45+, with seventy rounds that grow into a garden players keep.

SKILLS

Research	User research, stakeholder interviews, usability testing, UX audits, behavioral analytics
Design	Product design, UX design, UI design, interaction design, user flows, information architecture, wireframing, prototyping, design systems, mobile and web apps, dashboards, branding
Tools	Figma, FigJam, Claude Code, Claude Cowork, Microsoft Clarity, Google Analytics, UXMagic
